TOOL NOTICE:

To advise dealers the availability of Special Tool HDT-650587 from SPX Corporation to remove and install the J05 & J08 engine injector nozzle sleeve.

GENERAL INFORMATION:

SPX has released Special Tool HDT-650587 to allow replacement of the injector nozzle sleeve (Figure 1) without removing the cylinder head for servicing. Tool Kit is shipped with a hard plastic storage case and will contain the Easy Out Extractor, Wire Brush, Installation Tool and complete instructions.

BENEFIT:

Previously it was necessary to remove the cylinder head to remove the injector nozzle sleeve from the cylinder head.

By utilizing Special Tool HDT-650587 for injector nozzle sleeve replacement:

- Cylinder head removal is no longer required
- Substantial reduction in labor time and associated costs
- Reduce down time for repairs
- Increased customer satisfaction with dealerships service department

ORDERING:

Tool Kit will be available for ordering late January or early February 2012. Dealers can place their orders via telephone at (866) 621-2128. Contact SPX directly for tool pricing.
