Your Telematics Support

# UD TRUCKS ADVANCED & ENHANCED TELEMATICS FLEET MANAGEMENT SYSTEM

Fleet Max Plus is a comprehensive fleet management solution designed specifically for Australian conditions. Based on world-class technology, Fleet Max Plus is ideal for fleet owners and operators who need their fleet to go the extra mile. Developed and supported locally, Fleet Max Plus provides the most comprehensive real-time vehicle management tracking.

## WE KNOW HOW TO TREAT UD TRUCKS

With Fleet Max Plus, you can rest easy knowing you are in complete control of your fleet. Fleet Max Plus comes standard across the entire range of UD Trucks, the first ever of its kind, and it can also be retrofitted to your existing fleet. Fleet Max Plus reports from your vehicles 24 hours a day, 7 days a week. You can personally track and locate your trucks with the touch of a button.

Fleet Max Plus utilises fully licensed mapping and is immediately updated as new maps become available. The comprehensive range of reports presents detailed live and historical information including fuel data and driving style parameters that influence fuel economy.

### VEHICLE UTILISATION & EFFICIENCY

Fleet Max Plus allows you complete protection 24 hours a day. The hardware device is covertly fitted to your vehicle, and using the Telstra GSM Network, the module in the vehicle records, reports and transmits trip reports with the vehicles' location. Fleet Max Plus provides comprehensive reports and alerts direct to your mobile phone or email, putting you in control of your fleet. All information is securely stored for seven years, and can be easily accessed through the Fleet Max Plus internet web portal.

### DRIVER MONITORING THAT LEADS THE WAY

Keep track of performance with a range of reports including; driver profiling including fuel data and driving style parameters that influence fuel economy, driver score reports and driving violation reports including harsh braking and harsh acceleration. Fleet Max Plus also supports customised geofencing including sites and roads. Fleet Max Plus generates a variety of useful reports that allow you to identify areas for continuous improvement.
